

# 自我介绍

您好！

我叫王玮琛。我今年24岁，是厦门大学新闻传播学院网络数据新闻方向硕士生，本科毕业于厦门大学物理与机电工程学院机械设计制造及其自动化专业。

现在，成为一名优秀的Web前端开发工程师是我的人生目标。

我先介绍一下我为什么选择这样一个目标。

首先是因为我本科也算是一个计算机相关专业，参加过飞思卡尔智能车比赛，有负责我们组小车C语言程序的编写和调试，打下了比较扎实的编程基础。

之后我跨专业保研到了我们学校新闻传播学院，数据新闻方向。这是一个跨学科的方向，web前端是它的技术支撑之一。我根据自己的专业背景还有兴趣，就选择了主要把精力花在Web前端的学习上。去年暑假在CCTV9的综合部实习，主要负责它们内部调研报告的H5制作；然后帮助导师成立了数据新闻工作室，主要负责制作网页版的数据新闻，还负责写了一个数据新闻网站完；然后今年4月，我作为前端开发实习生在北京清华科技园采遗网参与其网站的开发和升级。

我感觉我是很喜欢并且适合这个方向。我觉得我呢，可能不是很聪明，但是绝对非常踏实，勤奋。而且自学能力比较强，喜欢学习新东西。并且觉得前端这个方向有意思，又非常贴近生活。

为什么我想要加入ft中文网？

首先，ft有顶尖前端开发团队，我觉得这是一个非常难得的学习和锻炼的平台；然后，ft中文网是一个非常高端、专业的财经类媒体，这和我研究生的新闻传播类专业背景也是很契合的，在媒体工作一直都是我的梦想；还有，在这样一个专业性的财经媒体工作，我相信我也能学到很多财经方面的知识，这对于一个整天在实验室埋头苦干的工科同学更是一个非常宝贵的机会。

所以呢，我希望能够在ft中文网努力工作，勤奋学习，成为一名优秀的前端开发工程师。

Hello, I am Wang Yichen. I am now a master student of school of Journalism and Communications of Xiamen University ,and my research direction is data Journalism. And my undergraduate major is mechanical automation.

Now,to become a brilliant front-end web developer is my life goal.

Please let me tell you why I choose this road.

As you kown,my undergraduate major can be regarded as computer-related.During that period,I had taken part in the competition of "FreeScale " cup Smart Cars. So I had layed a solid foundation for computer programming.

Then by exam-free recommendation,I became a master student of the school of Journalism and Communications of my university,and my direction is Data Journalism. As the front-end web technology is one of the main technical supports to make or study data journalism, I have devoted myself to learning front-end web.

Up to now, I have read many professional books on front-end web technology and had several internship experience of front-end developing.

/\* I think I like front-end web very much and I am suitable for it. I am very hardworking, though I may not be very smart. And my self-study ability is strong, I like to keep learning new things. What's more, as front-end web is really closed to our life, I love it from bottom of my heart.\*/

Next,please let me tell you why your company extremely attracts me .

First of all,ft has a top team of front-end web developers. Then,different from other internet companies, FTChinese is a media. And Working for a media is my dream. What's more,as ft is a high-end financial media, my financial knowledge will be improved if I work in your company,thus really providing a golden opportunity for us engineering students.

That's all,thank you.
